RN-BSN ONLINE PROGRAM

Criminal background check and/or drug screen tests may be required for practicum experiences and/or employment.

The RN-BSN Online program builds on previous knowledge and concepts learned in associate programs leading to the attainment of a Registered Nurse license and practice as a professional nurse. The program prepares the baccalaureate graduate to synthesize information from various disciplines, think logically, analyze critically, and communicate and collaborate effectively with patients and the interprofessional team. The curriculum incorporates current concepts from nursing, related disciplines, and education to facilitate the development of caring and ethical generalist nurses empowered to practice patient-centered, evidence-based care, for diverse populations, in an ever-changing and complex health care environment. Students are provided the opportunity to develop skills through on-line classroom instruction, virtual practice, and practicum experience.

120 SEMESTER HOURS

GENERAL EDUCATION SMSTR HR
Prerequisite General Education† ANATOMY & PHYSIOLOGY 8
CHEMISTRY 3
ALGEBRA OR COLLEGE MATH 3
ENGLISH 3
General Education BIO250 MICROBIOLOGY 4
ENG310 INTRODUCTION TO LITERATURE 3

RN LICENSURE SMSTR HR
CREDIT AWARDED FOR PROOF OF GRADUATION IN REGISTERED NURSING FROM AN ACCREDITED INSTITUTION AND FOR UNENCUMBERED REGISTERED NURSING LICENSE. 40
SUBTOTAL 40
TOTAL 120

Graduates of Provo College’s Associate of Science in Nursing program will receive credit for having successfully completed any prerequisite or General Education courses that are included in the ASN program. Students entering the program from other colleges will have transcripts evaluated on an individual basis.

‡Co-requisite and/or prerequisite course(s) required. See course descriptions.

Students must maintain a current unencumbered Registered Nursing license from the start of Nursing Core courses and through program completion. Students will progress to nursing practice courses according to an established sequence. The nursing program will recommend promotion and progression for students who satisfy health, conduct, scholastic achievement, and aptitude requirements of the nursing department. Students experiencing adjustment difficulties may be dismissed from the program. Students are required to submit to controlled substance screening tests and background checks prior to admission to practice rotations at the students’ expense. Failure to submit to testing, presence of positive drug screens, and/or unsuitable background checks may result in inability to progress in the program. Should a student’s progression be interrupted, it will be the student’s responsibility to apply for re-admission. Alteration in the usual progression may lengthen the student’s time in the program. Additional program policies and requirements are detailed in the Nursing Program Handbook.

A grade of “C” or higher is required to successfully pass each general education course. If a student does not pass a general education course with a “C” or higher their progression in the nursing program will be halted. A grade of “C+” or higher is required to successfully pass each nursing course. If a student does not pass a nursing course with a “C+” or higher, their progression in the program will be halted and they will need to apply for reentry into the Nursing Program where they must retake the class and receive a “C+” or higher. A student may repeat a nursing course one time. Placement in repeat courses is dependent on seats available. A minimum GPA of 2.3 is required to continue in the program and for graduation. Failure to comply with any of the above stipulations and/or legal, moral, and legislative standards required for licensure to practice as a registered nurse will result in immediate dismissal from the program.
PTA180       15 hrs, 1 credit
PTA SEMINAR I
Co-requisite: PTA116
This is the first of two seminar classes in the PTA curriculum. This class builds on information first introduced in the Introduction to Physical Therapy course, with topics including: PT and PTA ethics and standards of practice, professionalism in the field of physical therapy and APTA structure and professional association benefits. The healthcare delivery system is also discussed during this class. Additional topics highlighted throughout this course include: reporting suspected cases of abuse to vulnerable populations, reporting suspected cases of fraud and abuse related to utilization of and payment for PT services, reviewing health records, APTA Value Based Behaviors and review of the ICF model of functioning disability and health.

Lecture hrs: 15, Lab hrs: 0, Other: 0
